

I just CONFIRMED these bypass directions (all year around) around old Truckee ag. insp. stn. & NEW which will be opening very soon to ALL traffic. Adds only ~1 mile and 15 minutes versus freeway and saves the ferret surrender stop. This very detailed description to ensure no mistakes but actually fairly easy and can be easily followed on Mapquest or Googlemaps:

1. Exit I-80 Hirschdale Rd. exit #194 (also Boca reservoir exit) ~10 miles east, before Truckee
2. Loop south under freeway 1/2 mile
3. Stay right @ wye onto Glenshire Drive heading southwest (no signs @ this wye)
4. Continue on Glenshire ~8 miles through community of Glenshire to Donner Pass Rd. (tee @ end of the road)
5. Once the new station open, turn right on Donner Pass and follow signs to loop back onto I-80 west
6. Otherwise, while old inspection station still possibly open, turn LEFT on Donner Pass Rd. @ same tee.
7. Continue all the way through old Truckee, under the freeway on Donner Pass road and through newer west Truckee
8. Enter I-80 on far west onramp (exit #184) rather than continuing under freeway to Donner lake (Same on ramp as in old instructions to bypass old station.).
